> So, we've gone through your files to define your financial abilities. We've been looking through your bank statements, net income, cyber liability limits, financial audits - all the info that might help us calculate our demand to you. We're willing to set a \$350,000 price for ALL the services we offer: 1) full decryption assistance; 2) evidence of data removal; 3) security report on vulnerabilities we found; 4) guarantees not to publish or sell your data; 5) guarantees not to attack you in the future. Let me know whether you're interested in a whole deal or in parts. This will affect the final price.
